OVERVIEW

LUMOS
CONTROL

SIMPLEST LIGHTING CONTROLS EVER MADE!

- *Easy to specify*
- *Quick to set up*
- *Simple to use*

Lumos Controls is the world's simplest smart lighting control that allows you to create exceptional lighting experiences for smart enterprises. The ecosystem features controllers, sensors, switches, gateways, and analytical dashboards to set up basic to advanced smart controls. Lumos Controls offers you the freedom to decide what to achieve and how to grow and step into a sustainable future.

Lighting controls simplified

Simple connected smart-lighting controls that you can set and forget

Save time, money and resources

Save more on your energy bills, avail rebates, reduce labor cost, and installation time

Effortless code compliance

Make you easily comply with building energy codes and standards

Be in control of your building data

Generate detailed analytical reports on energy utilization, occupancy patterns, emergency monitoring, and device usage

Green building initiatives

Give life to your green building and ESG initiatives through lighting

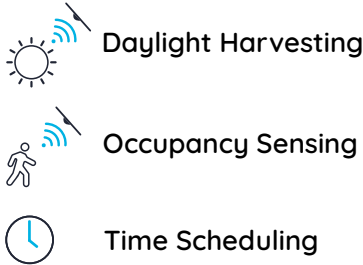

Choose smartness to simplify every stage of your journey

Our lighting control ecosystem is an end-to-end solution for every step of your smart lighting journey: starting with a simple switch and controller while gaining more benefits through automation. This ecosystem gradually contributes to green building and ESG initiatives through savings on resources, time, and money. Also, your smart journey with us expands beyond controls. You can use the same lighting infrastructure for location-based and other value-added services.

Go wireless

Automate lighting

Analyze data

Be carbon zero

Expand beyond controls

Mobile App

Lumos controls offers an easy-to-use mobile app to simplify and redefine smart lighting experience for enterprises. The app can easily configure and control individual/group devices, invoke scenes, and schedule device operations.

Commission

Commission at scale

Control

Controlling individual/group of devices conveniently

Update

Always up-to-date with OTA upgrades and security features

Configuration

Easy and quick configuration of multiple devices

Automation

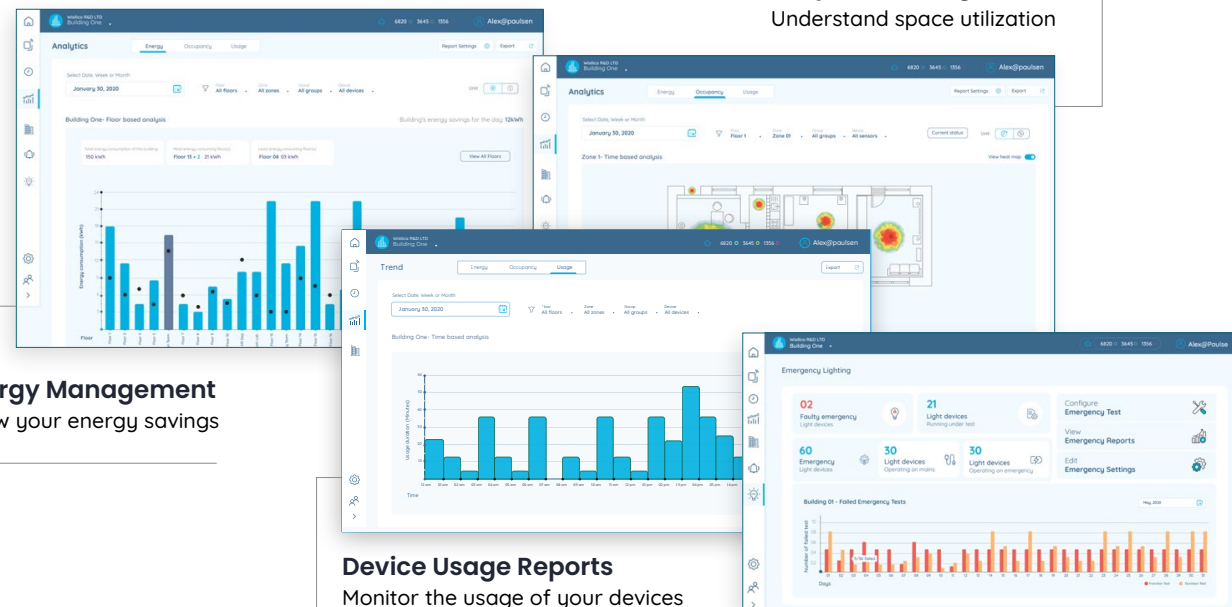

Automate lighting with sensor association and scheduling

Maintain

Quick troubleshooting and replacement of devices in your lighting network

Analytical Reports

Get reports to plan your next course of action!

Space Management

Understand space utilization

Energy Management

Know your energy savings

Device Usage Reports

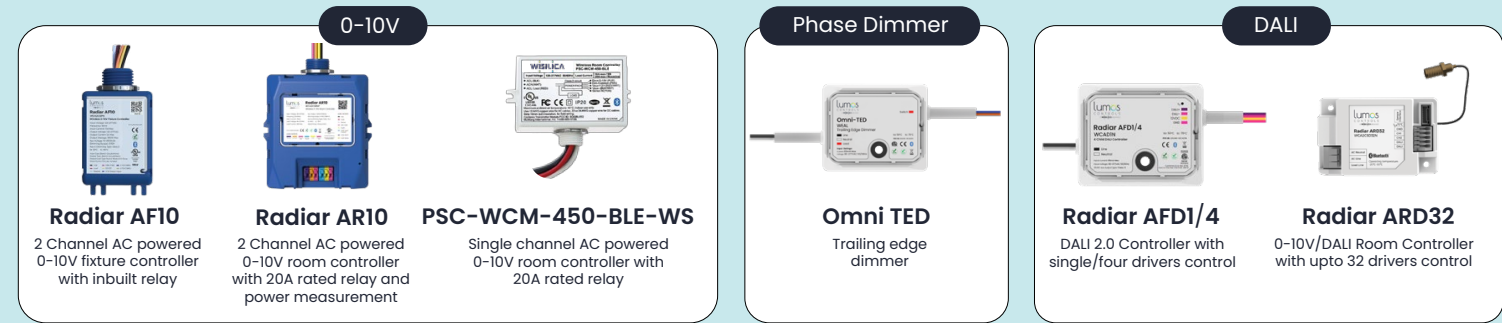

Monitor the usage of your devices

Emergency Monitoring

Ensure safety & mandatory compliances
