

Cyrus AM

WIRING

Wire Description

Cyrus AM is powered via AC supply to communicate sensor data wirelessly with other WiSilica BLE mesh devices.

Additional junction box is not required for the sensor as the termination will happen inside the sensor case.

Pin	Name	Color	Guage	Rating	Description
1	Line	Black	18AWG (0.75mm ²)	300V	90-277VAC input line
2	Neutral	White	18AWG (0.75mm ²)	300V	AC input neutral
