

Cyrus AP

WIRING

Wire Description

Cyrus AP is powered via AC supply to communicate sensor data wirelessly with other WiSilica BLE mesh devices.

Note:

Additional junction box is not required for the sensor as the termination will happen inside the sensor case.

Pin	Name	Color	Guage	Rating	Description
1	Line	Black	18AWG (0.75mm ²)	300V	90-277VAC input line
2	Neutral	White	18AWG (0.75mm ²)	300V	AC input neutral
